

Super Sensitive™ Detection

BioGenex is pleased to introduce New and Improved Poly-HRP Super Sensitive™ Detection system with unmatched sensitivity, clean intense stain with the shortest assay protocol.

2-Step Detection System

- Fast 40-45 min turn around time.
- Universal system for rabbit and mouse antibodies
- Enabling higher dilution of antibodies, reduces cost
- Highly specific stains for weakly expressed nuclear, cytoplasmic membrane antigens
- Ultra-sensitive with superb staining quality

BioGenex
